Fact Monster

Fact Monster is a reference site for kids ages 8-14 that combines the contents of an encyclopedia, a dictionary, an atlas, and several almanacs loaded with statistics, facts, and historical records. A single search engine allows you to search all these sources at once.

Flocabulary

Use this engaging website to teach vocabulary, language arts, math, science, and social studies concepts using rap. Check out the samples or sign up for a 14 day free trial. Paid memberships available for classrooms, buildings, districts, and even home use. Looking for common core alignment? There's a section that matches CCSS with videos on the website.

Google Lit Trips

Google Lit Trips is an innovative exploration of literature paired with Google Earth. Users download a file with links to locations in Google Earth. It is a fascinating way for students to visually explore the scenes, routes and locations in literature. Great recent updates have been made!
