Featured Infinitec Stops This Week

Amazon Echo As An Accessibility Support

If you've ever wondered about the Echo and how it might be used by a person with a disability, here is a great article. Luis Perez is well known to Infinitec as a webinar presenter. Read his blog post to see how the Echo Dot can be used by a person with a vision impairment. His ideas and explanations are well worth your time and will probably spark more ideas!

Search Google Using Your Voice

Here's a short screencast describing how to set Chrome and let you search Google using speech recognition. It's a very simple process of setting your home page in Chrome to <http://www.google.com/#>. Watch the demonstration and give it a try. Please be patient; it may take a few minutes to load.

The web-map on Infinitec to these resources is:

Sign in to www.myinfinitec.org → on the home page, click on the main tab for Resources → click on Access in the drop down menu at the left → click on Tools for Implementation on the secondary tool bar at the top → click on [Amazon Echo As An Accessibility Support](#) or [Search Google Using Your Voice](#).

Share the News:

Tell your district colleagues about MyInfinitec. This resource is too good to not share it!! And best of all, it's free! **Barb Lhotka, Editor** barblhotka@embarqmail.com

Webinars: Live

Webinars from Infinitec are free to members. They are found on the bottom right side of the home page. Click on the webinar(s) of your choice to register. All you need is a phone and a computer with internet access. The phone call is free.

On the home page of Infinitec, on the left side of the page, you will find Webinar FAQs to answer all your questions regarding participation in a webinar. You will also find a very helpful Login Guide to Webinars on the home page. (Many webinars have been archived on the website.)
